

**PRESS RELEASE 1226**  
**1 November 2005**

A delegation from the Liberal Party of Gibraltar leave for Majorca today to participate in the 175th meeting of the Executive Committee of Liberal International. The Executive Committee is the main forum of Liberal International between Congresses.

The Gibraltar delegation is led by Liberal Party Leader Dr Joseph Garcia and includes Secretary General Steven Linares and Executive Member Leslie Bruzon.

The meeting will be preceded by a conference on the "Barcelona Process" which will debate relations between countries that border the Mediterranean Sea. There will also be a meeting of the Human Rights Committee.

A spokesman for the Liberal Party said that the delegates looked forward to exchanging views with Ministers, MEPs, MPs and politicians from all over the world. They would take the opportunity to raise the Spanish legal challenge to the enfranchisement of Gibraltar for European elections, given that Liberal International has in the past adopted a resolution in support of Gibraltar's participation.
