

STATEMENT BY THE GSLP/LIBERAL OPPOSITION 140/2006
9 November 2006

The Leader of the Opposition Joe Bossano has this morning given a wide-ranging interview to the AREA group. This will be broadcast on radio and television and printed in the AREA newspaper. It follows the interview given by the Spanish Foreign Minister Miguel Angel Moratinos last week.

The interview lasted for one and a half hours and was principally concerned with the statements made the previous week by Mr Moratinos and the subsequent expansion of them by the Spanish Foreign Ministry.

Mr Bossano explained the position of the Opposition with regard to the areas of the Cordoba agreements that are unacceptable to us and which would not be implemented by a GSLP/Liberal Government.
