

STATEMENT BY THE GSLP/LIBERAL OPPOSITION 84/2007

30 September 2007

The Opposition would like to congratulate all students who sat GCSE, AS and A level exams for their great results. Gibraltar's education system has always shown that as far as this area is concerned we have traditionally done well. Opposition member Steven Linares said that this year's results shows that we do well in this area of education and that teachers at all levels should be congratulated for the achievements of students.

The Merit is for the teaching profession in general since Nursery, First and Middle school teachers are the ones who start the process of a child's educational development and secondary school teachers continue the good process to take them up to GCSE, AS and A level success.
