

STATEMENT BY THE GSLP/LIBERAL OPPOSITION

104/2009

21 August 2009

The Opposition would like to congratulate all those students who have passed their A'level exams and those who have done so with flying colours.

Education is an investment in the future and it augurs well for Gibraltar that our younger generations continue to perform so well in their exams. It is important that as another wave of young Gibraltarians is ready to set off for UK universities that we ensure that there is adequate provision and advance planning in place to accommodate those who may want to come back once their studies are complete.

The results once again reflect the dedication and professionalism of the teaching staff in our schools who also deserve a share of the credit for this success.
